Topic Descriptions

Staying Informed: Medicare Updates and Reminders from CGS
The session will address recent and future changes in Medicare that have or will impact processing and payment of Medicare claims to home health agencies. The speaker will also review common billing errors and resources for preventing and resolving these mistakes. Probe and Educate rounds 1 & 2 of the Face-to-Face will also be discussed.

Regulatory Roundup- Final Rule 2017, Hot Topics in DIA
Every year the “Final Rule” is published by CMS to update our payment for the next calendar year- but there is so much more! See what else CMS has changed for 2017—from quality measures, proposals for new payment systems, and ICD-10 coding changes. We will catch you up to speed on the “What Next’s”!

Are You Ready for OASIS C2?
On January 1st, 2017, a NEW OASIS will be upon us! This afternoon’s two part session will provide you with the overview and details of the changes- from all of the Look back items, to the Pressure ulcers (yes, they do heal now!) to our new “GG” item in the ADLs- we will provide you with the CMS guidance and break it down into everyday clinician language.
