

Assisted Living Management Certification - Online Course

This on-line course meets the Iowa Department of Inspections and Appeals requirements, IAC 69.25(5), for assisted living program managers

The focus of this on-line education program is to identify the essential components of a well-balanced assisted living management program.

The Iowa Center for Assisted Living Association provides this on-line Iowa Assisted Living Management Certification Program. This management course will prepare you to develop services and procedures that reflect assisted living values and comply with certification rules. Whether you are new to health care, or simply new to assisted living continuum, this course will give you the skills and confidence needed to manage your community successfully. Managers from all levels of your community will benefit from this program.

Who should take the online course: Assisted Living Managers, Administrators, and Nurses who are unable to attend the in-person program.

In this Iowa Assisted Living Management Certificate Program series you will learn about the six domains of practice:

- * Iowa's Assisted Living Regulations and the Survey Process
- * Resident Services Management
- * Human Resource Management
- * Leadership & Governance
- * Physical Environment
- * Financial Management

How do you earn the Iowa Assisted Living Management Certificate?

Successful completion of the "Iowa Assisted Living Management Certification Program" 40-hour core course requires completion of the six domains with passing test scores.

Certification renewal: In order to ensure continued competency, certified participants may renew their certification every two years. Certified participants will be notified when the renewal date is approaching. Renewal is accomplished by annually completing 10 hours of ICAL approved continuing education in the area of assisted living management or administration.

Please contact Dave Tomlin at (800) 422-3106 or dave@iowahealthcare.org with any questions about the online program.
